020 8150 2383

# INTRO

We present to you a catalogue of stylish finishes that will enhance any modern or even traditional home, workplace or studio.

We believe that once you have finished designing your home or business and you have everything fitting perfectly sometimes that black box in the corner stands out like the proverbial throbbing thumb and more often than not, needs discreetly camouflaging.

If you are style conscious you will eventually find that your TV, although high performance and high definition, is a distraction from the design and function of the room and many discerning clients may find that they want something more from their TV and audio/visual system.

There is a solution – **We are the solution**; that means that the television blends in with the décor and looks good whether the television is switched on or off.

At Visiology we have come up with a stylish and impressive solution which converts this functional item into a room centrepiece. Combining traditional crafts with modern design and technology, we can turn your TV into a piece of art and improve your viewing experience. Guaranteed.

Our completely bespoke frames and solutions are available in a near unlimited range of colours, sizes and finishes to blend your TV perfectly with your interior décor. We also offer a range of impressive features such as a special glass screen that magically transforms your TV screen into a feature mirror, or a painting which, at the touch of a button covers your TV screen with your favourite work of art when not in use.

Our brochure is designed to introduce you to some of the possibilities available with Visiology's technology.

If you need any more information, or would like to arrange a demonstration, then please call us on 020 8150 2383.

Every Bespoke TV Frame is created by hand to perfectly complement your interior with your own unique choice of shape, wood, colour and finish. All our frames are made from premium hardwoods and finished in our own UK workshops to the highest quality. These pages feature just a small sample of the frames which we can create for customers. We recommend an interview with one of our design consultants to find the options which will best enhance your own interior or business premises.

**The Flatenium** - The 'Flatenium' is a very beautiful frame for those who want a simple yet effective frame to blend neatly into the room's decoration with subtle class. The frame has been crafted in such a way that when looking at the frame from the front you only see the face of the frame, giving the product a smooth and flawless appeal. We took inspiration from the simplicity of a basic frame and then transformed it into something much more appealing.

The perfect solution for restaurants and social spaces

**La Classico** - A beautifully crafted frame with a round face and steps going inside with a special depth design. This is what makes this frame 'La Classico'. For those who fancy a frame that is round with a look somewhat conservative and modern or you find that this frame just fits the style and theme of your property.

A great way to blend TV sets into commercial interiors and office spaces

**3Dtional** - Inspired by the first TV devices that were created this frame gives a sophisticated yet clever look. Using special line grooves and steps the '3Dtional' frame is beautifully crafted giving a stunning effect when constructed around your TV and integrated into your home.

Improves the viewing area surrounding your screen for a better viewing experience

**The Modernisation** - The Modernisation is a frame influenced by the new 20th century frame designs which include curved and straight lines blended together. This frame gives an extraordinary look when built around a flat screen TV, comprising of a curved bottom and a sloping flat top. A frame that fits well with contemporary designs, and for those who are looking for something a bit unique to compliment their other furniture.

Create a focal point for any room or seamlessly complement your interior design - the choice is yours

## 10 OUR EXCLUSIVE RANGE OF BESPOKE ORNATE TV-FRAMES

---

Ornate TV frames offer a stunning addition to any classical interior. These frames are inspired by some of the finest classical designs from around the world. Made to seamless museum quality, each frame in this premium selection is hand carved using traditional techniques and can also be gilded in 24k gold leaf or white gold leaf. As they are made to order, every frame offers a variety of custom gilding and depth options.

## 12 LEATHER & FABRIC TV FRAMES

---

Our frames are not only available with a wooden finish. We can wrap frames in many kinds of fabric including our popular leather options. With the addition of an inner fabric between the frame and screen, this softer appearance helps any television blend seamlessly with the interior décor.

The addition of fabric also enhances the whole viewing experience. By creating a consistent colour and texture around the edge of your screen, the eye is free from distraction and reflection - giving you the full impact of the screen at any distance.

From our wide range of options, we can create the right colour, depth and style for any television and interior. All our leather and fabric frames are hand-finished to ensure the finest quality and to make every TV frame truly unique.

Visiology produce Bespoke Mirrored Glass Frames made to measure.

We are the only company in the UK that will produce a precise made to measure bespoke mirror frame. No matter what size you want the mirror frame we will create it. Enhance your interior with Bevelled or Non-bevelled Mirrored Frames.

Created from scratch manufactured from mirrored glass with a simplistic bevelled edge, Visiology offer a muted design for modern living room or dining areas. Timelessly stylish, it provides a generous viewing pane to check your appearance and reflect the beauty and harmony of your existing interior surroundings. Use this luxury wall mirror to add glamour to home decor settings or to encourage a feeling of depth and dimension in dimly lit design schemes.

## 14 LUXURY & CUSTOM TV FRAMES

---

In the rare instance that you can't find a frame that would perfectly meet your requirements, and you have your own vision of the frame you need, then talk to us. Our skilled craftsmen are able to create your ideal bespoke solution. So, please, don't hesitate to give us a call, we will be happy to turn your idea into reality. See a few examples here.

1.8 x 1.5m Bespoke White TV Mirror Frame With Soundbar Incorporated and 75"TV

TV is concealed behind your choice of artwork

TV is revealed for viewing at the touch of a button

There isn't a need to choose between art and television anymore.

With our moving artwork, your choice of painting can become the centrepiece of any room. When you want to watch the television, press a button and the canvas smoothly rolls back to reveal your flat-screen.

You can supply your own artwork in digital format or we can create a high resolution photograph of your favourite work to incorporate into the frame.

Each painting is created from a professional giclée print applied to a special canvas designed for continuous movement. The operation is powered by an ultra-silent drive mechanism.

Moving artwork can be incorporated into any of our bespoke frames and our design advisers will be able to help you select both your artwork, and the frame which will bring your love of art and technology together.

For inspiration, our website has a selection of popular art prints to use with our Moving Artwork frames.

We can also use any photograph or art image you would like. If you prefer to have an oil on canvas painting, then we can get any image you want painted by an artist and incorporated into your choice of frame.

For more examples on the artwork options available, visit our website: [www.visiology.co.uk](http://www.visiology.co.uk)

Your TV is elegantly framed while watching

Transforms into a flawless mirror when not in use

TV mirrors are an amazing new development from Visiology. As modern flat-screen TVs become larger and more central to a room, the large black rectangle of a powered-off television can detract from your carefully designed interior.

A TV Mirror can solve this problem and can transform your TV into an elegant feature mirror at the push of a button.

Using advanced beam splitter mirror technology, a clear image appears within the mirror when the TV is turned on. Turn your TV off and it instantly transforms into a flawless decorative mirror.

Our TV Mirrors can add instant elegance to any room.

The technology is especially popular with bars & restaurants who wish to disguise the TV when not in use for sporting events.

It is also a favourite addition for those with traditional or classically designed interiors who prefer to keep their technology hidden from the eye.

TV mirrors are available with any of the framing options listed in this catalogue.

## 18 BESPOKE KITCHEN MIRROR TV

With our Kitchen splash-back you can seamlessly integrate a TV within your kitchen. This saves you space and creates that WOW factor for the kitchen you are designing. You can choose from a variety of different TV Mirror Glass Shades. We offer bespoke design and installation using glass that is heat resistant if above a heat source.

For more details and specs discussion, don't hesitate to get in touch with us.

### Bespoke Kitchen Mirror TV

Add sophistication and elegance to your bathroom in a matter of only minutes. An ultra thin TV is built directly into the custom sized TV mirror, so you would never guess there is a TV hidden behind it until it is turned on and the television magically appears. We are able to work with you on your project and manufacture nearly any size, from small mirrors to entire walls. For bespoke projects or consultation contact us.

Bespoke Bathroom Mirror TV

TV off

TV on

Frame Your TV offers bespoke solutions to cover a fireplace and incorporate a TV within a special Dielectric Mirror Glass. We can offer bespoke design and installation using glass that is heat resistant. When off the TV will disappear within the Mirror Glass, creating a stunning and elegant design. For more details, just get in touch with us.

55 inch Vanity Glass Fireplace

Full Dielectric Mirror Fireplace with 65 inch TV

Bespoke Fireplace Mirror TV

In every gym there are mirrors and there are TVs. It makes perfect sense to combine the two together to create a seamless design.

Frame Your TV offers a bespoke solution to incorporate TVs within special dielectric TV Mirror glass or a combination of regular mirror glass and TV Mirror glass. All our Bespoke gym TV Mirrors are done in house, from start to finish. We offer onsite visits and installation, if required.

Just get in touch with us to find out more.

## 22 FRAMELESS MIRROR TV

If you are after a minimalistic look without a frame, we can create this for you in whatever size and shape you desire. Choose from a wide variety of different glass types to suit any environment. Perfect for a blend of modern and traditional settings in commercial or residential locations. All frameless mirrors have unique bracket systems allowing easy installation and access.

Call Visiology today for more details.

Visiology are proud to be a market leader working in collaboration with our high profile customers, developing solutions that have put us at the fore front in the market of bespoke interactive mirror TVs. Our interactive mirrors include touch functionality through glass and special software. To date we are considered the market pioneers. For any enquiries please get in touch with us.

#### Touch Mirror

There are multiple solutions to incorporate a TV into the décor of a room. Follow Visiology and dare to be different with a modern look with this printed glass solution.

Using new glass cutting techniques, Visiology have opened a new niche in the TV solutions with the possibility of creating your own custom shapes and designs in printed glass.

You can choose from an array of designs or let us know what you have in mind and we will help you design a printed glass solution for your TV.

Printed Marble Glass

#### Bronze Dielectric TV Mirror Glass

The Bronze Dielectric TV Mirror Glass produces a Warm look. It has an effect of a tinted mirror adding a bit of warmth. Widely used for Kitchen Splashbacks and Frameless mirrors. Mostly incorporated with Ornate Frames when the TV is smaller than the Glass. When turned off the TV disappears completely.

#### Grey Dielectric TV Mirror Glass

The Grey Dielectric TV Mirror Glass produces a tinted modern look. It has an effect of a smoky mirror. Widely used for Kitchen Splashbacks and Frameless mirrors. Incorporates with Modern style frames mostly when the TV is smaller than the Mirror Glass. When turned off the TV disappears completely.

#### High Reflective TV Mirror Glass

High Reflective Mirror Glass is the most popular type of mirror to incorporate within frames. This is best used when the TV and frame that you choose are the same size, giving you a better REAL mirror effect.

#### Beam Splitter Dielectric TV Mirror Glass

When there is a lot of natural light in the room the Beam Splitter produces less glare than the High Reflective TV Mirror Glass.

#### Vanity Dielectric TV Mirror Glass

Due to its high reflective properties, it is mostly used in bathrooms and Gym Walls for applications where the TV is smaller than the mirror. When turned off the TV disappears completely.

#### Silver Mirror with High Reflective Dielectric TV Mirror Glass

Most suitable in situations where a small TV up to 32" is required and you want a normal mirror. Screen area has a slight different mirror shade than the rest of the glass. Suitable for bathrooms, elevators, beauty salons, gyms, public restrooms and retail shops.

Our team of professional audio and video installers can ensure that both your TV and Frame are mounted correctly for viewing. Whether it is a single installation, multiple televisions, or cinema rooms with fully integrated home automated control system and any bespoke installations you may require, we ensure the highest quality installation at a time convenient for you.

For our full range of options please visit [www.visiology.co.uk](http://www.visiology.co.uk)
